SEVEN CIRCLES

PROGRESSIVE GROOVE METAL | NORTH WEST UK

THE SOUND

THE VISUAL

Biography

Seven Circles are a four-piece progressive groove metal band based out of the North West of England.
Formed in the tail end of 2025, the band brings together Dixie Joe Mason, Jim Penter, Chris Evans, and KB.
Inspired by odd time signatures, rhythmic heaviness and hook-based grooves, Seven Circles attempts to blend heavy shifting riffs and aggressiveness with a huge sound.
Seven Circles are initially releasing a number of single tracks across all streaming platforms throughout 2026-songs that showcase exactly what they're about.
Early showcase gigs in 2026 have already started turning heads, appearing in a sold-out hometown show and their biggest gig to date at Liverpool's Box Park. Bigger shows are already booked for late 2026 and into 2027.

...Seven Circles are only getting louder
